

## **Adult Foster Homecare in Oregon**

When adults with Developmental Disabilities are no longer able to live or be cared for in their own homes, adult foster care is an option. Adult foster homes (AFH) are single family residences that offer 24-hour care in a home-like setting.

The goal of an adult foster home is to provide necessary resident care while emphasizing his/her independence, choice, dignity and decision making. AFH caregivers also provide friendship and the opportunity for the resident to reside in a safe and caring environment.

### **Are you interested in providing adult foster home care?**

You can learn more about providing adult foster care by visiting the website below. Please visit the Oregon State Foster Care website at:
