Size of Proposed Building:_____ Number of Stories:_____ Acres:_____

I understand that the construction of any building and related activity may result in inadequate area for an on-site sewage disposal system on the above property.

A denial for on-site sewage disposal will result in this property not being further developed.

I agree that this proposed building will only be used for storage, that there will be no residential use and no plumbing fixtures.

I further agree that there will be no sewage disposal of any kind on this property, unless it is approved by Deschutes County.
