IS THIS IN RESPONSE TO A FIRE MARSHALL INSPECTION? _____

DESCRIPTION OF WORK: _____

I certify that the following is true and reasonably defines the scope of work for this project:

- 1) All work is limited to drops and arm overs in a light-hazard occupancy with like for like sprinkler heads, i.e. standard response and quick response
- 2) Positions of sprinkler heads relative to obstructions such as soffits, beams, partitions, walls, etc. complies with the current adopted edition of NFPA 13
- 3) The proposed work does not require hydraulic calculations and are not extended coverage or other specialized type of sprinkler, flex drops are not eligible for this program
- 4) Only one sprinkler head will be installed from one drop (exception: up to two heads from one drop may be installed when each head is in a separate fire area)
- 5) The area covered per head is limited to the spacing requirements of NFPA 13
- 6) Tenant improvements in a new building shall be equipped with quick response heads (see current adopted edition of NFPA 13)
- 7) The installation shall comply with the requirements of the current adopted edition of NFPA 13
- 8) Piping shall not be concealed until hangers and bracing are inspected
- 9) Deschutes County reserves the right to require plans and calculations
- 10) Final approval shall be subject to onsite tests and inspections by Deschutes County Building Safety Division and Fire Department

In addition, I understand the following is required:

- a. A sketch attached to this document showing the area of work within the building's structure, product cut sheets, and a copy of this document shall be available for all inspections

Signature: _____ Date: _____

Registered Design Professional: _____ Date: _____

(Required for Tenant Improvements in buildings greater than 4,000 sq.ft. that require signature of registered design professional)

Enhancing the lives of citizens by delivering quality services in a cost-effective manner.
