In what ways has the Perinatal Care Continuum program improved the care your clients have received?

- "Earlier access to services to promote more stability, decrease stress, improve health outcomes."
- "Excellent wrap around, better continuity of care."
- "Collaboration between agencies has been positive for clients having to attend fewer appointments to get the same services."
- "When we have a positive pregnancy they keep the program and does not change and increases the chances of success."
- "This is a great partnership we just need to figure out how to streamline the consensus."
- "They are getting into their appointments and have noticed that the clients really respond to the help they receive."
- "Increased tobacco use decreases awareness among pregnant and parenting women."

In what ways can we improve the Perinatal Care Continuum program?

- "You’re doing an excellent and amazing job! Your passion and commitment are noticed and greatly appreciated. You are such a key link in connecting communities and helping improve the health of families thereby strengthening our communities and our health. THANK YOU!"
- "I feel we need more hours for PCC appointments. There are days we need more than part-time PCC work."
- "The program and staff are invaluable to the clients and the community! Thank you so much!!"
- "This is a great partnership we just need to figure out how to streamline the consensus."
- "Add more staff or increasing hours available at each site."
- "Just hope it will continue to be a universal service for the clients here."
- "Increase funding to engage more community partners in the need for this work."
