Reproductive Health Satisfaction Survey Results
9/20/18-9/28/18

Response Rate
Approximately 50% (37/74 Clients)

Background and Rationale

The Deschutes County Public Health (DCPH) Customer Satisfaction Survey was implemented to inform staff and improve the quality of services provided to Deschutes County residents. Implementation of Health Services satisfaction surveys is a Strategic Plan Goal. Additionally, implementation of the survey aligns with the Public Health Accreditation Board Standard 9.1.4A, which calls for a “systematic process for assessing customer satisfaction with health department services.” Results are used to improve programs and services, and keep DCPH on target with goals.

The Reproductive Health Survey was conducted from September 20th to 28th, 2018 (1 week), and was distributed at the Bend and Redmond locations. The surveys were distributed via paper and through SurveyMonkey on tablet computers. The survey could be taken in either English or Spanish.

The surveys were voluntary and participants were assured that their responses were anonymous and would not influence their ability to obtain future services.

Methodology

OVERALL SATISFACTION: 100%

Preferred Language:
English: 94% (33)
Spanish: 6% (2)

Service Location:
Courtney Clinic/Bend: 3% (1)
Downtown/Bend: 62% (18)
