Background and Rationale
The Deschutes County Public Health (DCPH) WIC Customer Satisfaction Survey was implemented to inform staff and improve the quality of services provided to Deschutes County residents. Implementation of Health Services satisfaction surveys is a Strategic Plan Goal. Additionally, implementation of the survey aligns with the Public Health Accreditation Board Standard 9.1.4A, which calls for a "systematic process for assessing customer satisfaction with health department services." Results are used to improve programs and services, and keep DCPH on target with goals.

Methodology
The WIC Survey was conducted from September 18th to October 1st, 2018 (2 weeks), and was distributed at the Bend, La Pine, and Redmond locations. The surveys were distributed via paper and through SurveyMonkey on tablet computers. The survey could be taken in either English or Spanish.

The surveys were voluntary and participants were assured that their responses were anonymous and would not influence their ability to obtain future services. To provide an incentive for clients and increase response rate, each respondent was entered into a raffle for a $20 Safeway Gift Card. One winner was selected.
