FAA Advisory Circular 150/5200-33C

1. Guidance on certain land uses that have the potential to attract hazardous wildlife on or near public-use airports
2. For landfills, FAA recommends siting of new municipal solid waste landfill outside a 5-mile perimeter of the airport
3. The advisory only applies to the Bend and Redmond airports
4. The advisory recommends measuring the 5-mile radius from:
 - a. The closest point of the airport's aircraft operations area
 - b. From the closest point of the airport property boundary

Discussions with Airport Management

Redmond Airport

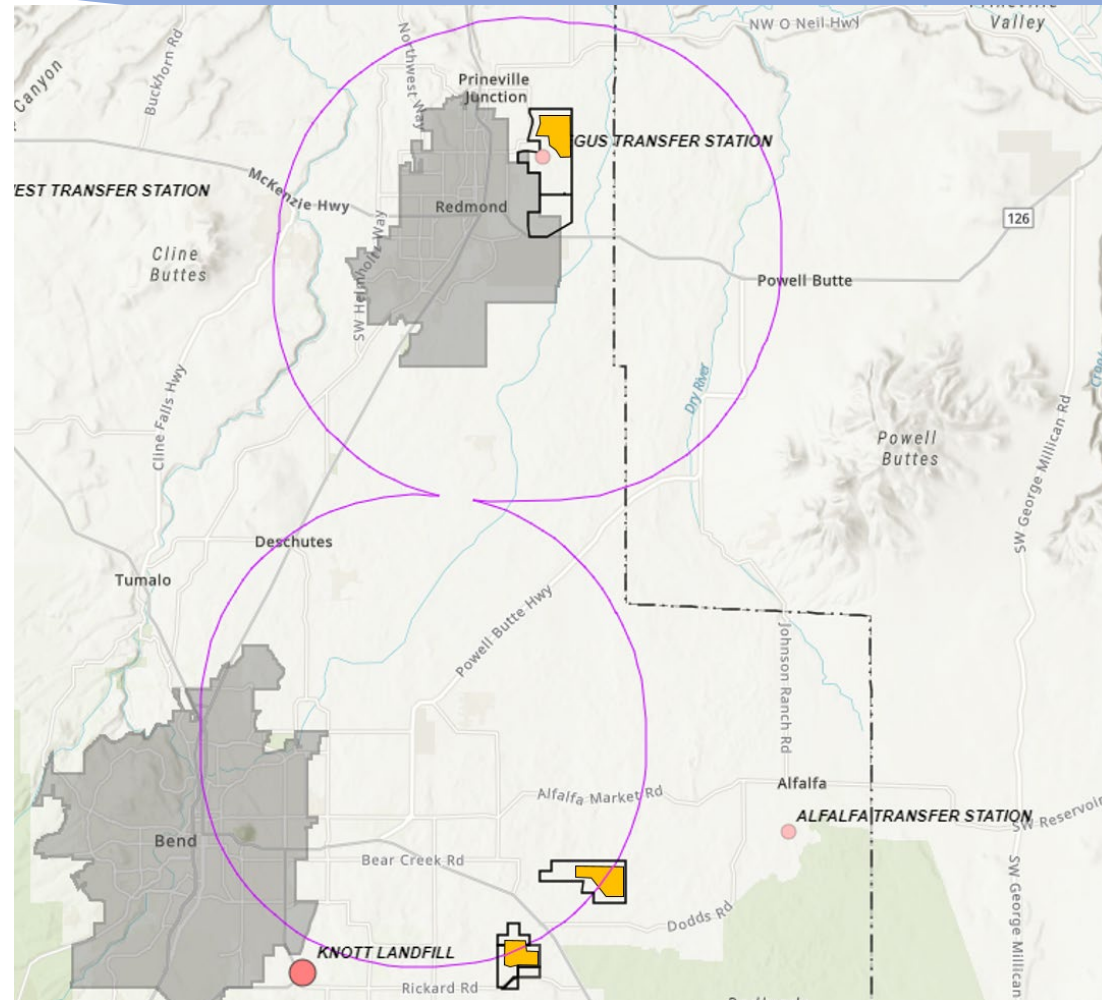

- Airport manager and engineer expressed concern and would not support the siting of a landfill within the 5-mile exclusion zone
- Concerns with both loafing at the landfill and the migration of birds to and from the facility
- City of Redmond concurs with the position that the FAA 5-mile exclusion recommendation be considered a requirement

Bend Airport

- Third busiest general aviation airport in the state; Runway approach is generally over the Rickard site
- Airport manager and the City of Bend concur with the position that the FAA 5-mile exclusion recommendation be considered a requirement

Affected Sites

Affected Sites

- Site 151300
Negus Transfer Station Property in Redmond
