Some questions to ask yourself:

- Is there a chance of debris falling out of my vehicle?
- Would I feel safe if I were following MY own vehicle?
- Would I want MY loaded vehicle driving through MY neighborhood?
- Do I need to drive slower than I normally do?
- Is my load secured on the bottom, sides, AND top?
- Is a non-secure load worth the risk of a $720 fine that could be imposed by law enforcement?

"SECURE YOUR LOAD"

County Ordinance 13.36.040
Transportation of Solid Waste

WHEN IN DOUBT, TARP YOUR LOAD
Is My Load Considered Secure?

Not if it looks like the following.........

- Bulky items that are not completely contained within the sidewalls of the vehicle must be adequately strapped down.

- If material is being hauled in tied bags, it must be tarped if the bags extend above the sidewalls.

- If the tarp is too small, torn, or inadequately tied, the load is not considered secure.

- If loose material is being hauled in an open vehicle, the load must be tarped, even if it’s below the sidewalls.

County Ordinance 13.36.040
Transportation of Solid Waste

No person shall transport waste or solid waste in or on a motor vehicle or trailer upon a public road unless such waste or solid waste is covered and secured.

“Covered and Secured” includes:

Loads which are totally contained within an enclosed vehicle or container;

Loads of refuse contained in garbage cans with tightly fitting lids, tied plastic refuse disposal bags or similar totally enclosed individual containers and are completely contained within the walls of a vehicle or container, such that none can reasonably be expected to escape during hauling;

Loads of refuse which are covered, as with a cloth or plastic tarp, and tied into the hauling vehicle, such that no refuse can reasonably be expected to escape during hauling;

Loads of brush, building materials and similar bulky materials which are tied into the hauling vehicle or completely contained within the walls of a vehicle or container, such that none can reasonably be expected to escape during hauling; or

Loads consisting entirely of rock, concrete, asphalt paving, stumps and similar materials and are completely contained within the walls of a vehicle or container, such that none can reasonably be expected to escape during hauling.

PROPERLY SECURED
