I am providing comments regarding the upcoming meeting proposing curbside recycling service in the Sunriver area. We live outside Sunriver in Oregon Water Wonderland II (don't know if we're "Rural service" or "Distant Rural Service). I support and would pay \$14/month for weekly or bi-weekly collection of glass and mixed recycling. We currently haul recycling either to the county landfill or Sunriver recycling center. I see way too many garbage cans overflowing with recyclable materials in our neighborhood on garbage day.

Please consider passing the resolution!
