Hello, my wife and I live full time at 6 Dixie Mountain Lane in Sunriver. We are in support of adopting universal recycling in Sunriver and the south county. While we were in favor of a new and expanded center in Sunriver it seems it's time to move on and side yard will work great for the majority of our owners. The 20% of us that are full time residents will benefit from having side yard at such a reasonable cost. The 40% that are part time residents that do not rent will be able to turn both the garbage and recycling off when away for the winter, in most of their cases. Then there is the 40% that are rentals. While it will be an increased cost to those owners they can pass it along to renters at 50 cents a day. Also with more traditional style recycling that most are used too we will likely get an increase in recycling by renters.

Thank you for your service
Randy and Sheri Schneider
